

FAA Safety Team presents:

Inaugural IMC Club Meeting - ADM - Mastering the Art of Instrument Navigation

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real-life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument-rated pilot to attend. Membership in the EAA Club is encouraged but not required to participate in this introductory meeting. For more information and to take part in this event, click the link below and register TODAY!

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

Directions: Enter in the front door turn right down the hall, next left hall into the meeting room. If flying into Don Scott Airport (The Ohio State University Airport), park on the ramp, either catch a cab or someone would come to get you. Less than 10 minutes away.
